Seeing God Everywhere: Essays On Nature Barry McDonald, 2010-08-01 How do people sense God's presence in created things? Seeing God Everywhere is an anthology of essays on nature and the sacred which address that question. Written by an impressive list of spiritual leaders and thinkers, these essays explore the question from many different perspectives. Reading these essays enriches our inner lives and enlivens our contemplative imaginations. Surely this is the deepest ecology possible. As a special bonus, at the end of each essay is a short poem on nature and the sacred taken from various traditions.

Seeing Ourselves in Nature Jessica Fong, 2025-08-19 Discover the profound and joyous stories of Black and Brown nature educators. In Seeing Ourselves in Nature, author Jessica Fong asks how educators in the United States who are Black, Indigenous, or other people of color can create space for predominantly BIPOC children and families to reconnect to nature. Recognizing the scarcity of stories from people of color in the predominately white literature surrounding nature education in the United States, Fong sought out thirteen other BIPOC educators to share their rich and profound experiences with young children in nature. Sharing these stories is a first step in the long road to making nature education equitable for all children. In section one, educators work toward liberation and justice by actively pushing against the pushdown of academics on children of color. In section two, community and cultural connections based in nature come to the forefront as educators share the importance of seeing Black and Brown faces in natural spaces, both in real life and in the images found in books. In section three, prose and poetry stories from Black women become radical by virtue of their simplicity as they connect the students and families they serve by centering their experiences with nature. In section four, children harness their powerful curiosity and intrinsic motivation when interacting with nature.

**Seeing through Texts** Francis X. Clooney, SJ, 1996-07-03 Seeing through Texts invites us into the world of South Indian Hinduism through a study of 100 songs of the *Tiruvymoli*, the great masterpiece of the ninth-century Hindu saint Saṅkapaṇ. These unique songs dedicated to the Hindu god Viṣṇu lead us through poetic and imaginative philosophical and moral reflections on the nature of the self and the world, ancient myths and temple worship, and the mystical moods of longing, desire, and love in which one seeks, loses, and finds again the God who loves us first. The book is also a study of the interpretation of the *Tiruvymoli* in the traditional Hindu *rivai* (commentaries) of the twelfth-fourteenth centuries, as well as a comparative theological study which explores the implication of the songs and their commentaries for readers from outside the *rivai* tradition.

**Seeing Through the Veil** Suzanne Conklin Akbari, 2004-01-01 During the later Middle Ages, new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision. This shift had a powerful impact not only on medieval science but also on theories of knowledge, and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion. In Seeing through the Veil, Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision. After a survey on the genre of allegory and an overview of medieval

optical theories Akbari delves into more detailed studies of several medieval literary works including the Roman de la Rose Dante's Vita Nuova Convivio and Commedia and Chaucer's dream visions and Canterbury Tales The final chapter Division and Darkness centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon Seeing through the Veil will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science

**Animals as Seen Through God'S Eyes** Dwila R. Funk,2014-06-30 Have you ever wondered what happens to your beloved pet when he or she dies Will you ever be able to see him or her again in heaven Or have you been plagued by the disturbing thought that animals are only here on earth for our enjoyment in this life but when they die that is it for them and they are gone forever This haunted me for decades until I finally got up enough courage to seek out the truth for myself I went to the word of God to conduct my own research This book is the result of my quest to find the truth about how God really sees animals and His plan for them I was astounded by the wealth of information that God shares in the Holy Bible regarding animals The answers are there hidden in His word All anyone needs to do is look **How to See Nature** Paul Evans,2020-03-25 Pack soup cheese and a copy of How To See Nature by the Bard of Wenlock Edge and Guardian diarist John Vidal With a title taken from the 1940 Batsford book this is nature writing for the modern reader Evans weaves historical cultural and literary references into his writing ranging from TS Eliot to Bridget Riley from Hieronymus Bosch to Napoleon It is a book both for those that live in the country and those that don't but experience nature every day through brownfield edge lands transport corridors urban greenspace industrialised agriculture and fragments of ancient countryside The essays include the The Weedling Wild on the wildlife of the wasteland ragwort rosebay willowherb giant hogweed and the cinnabar moth Gardens of Light about the creatures to be found under moonlight pipistrelle bats lacewings and orb weaver spider The Flow with tales from the riverbank estuaries and seas including kingfisher minnow otter and heron The Commons looks at meadowland with a human footprint with the Adonis blue butterfly horseshoe vetch skylark black knapweed and the six belted clearwing moth The author also looks at the wildlife returned to Britain such as wild boar and polecats and finds nature in and around landscapes as varied as a domestic garden or a wild moor The book ends with an alphabetical bestiary an idiosyncratic selection of British wildlife based on the author's personal encounters [The works of Alexander Pope. With notes by dr. Warburton](#) Alexander Pope,1850 **Works** Joseph Butler,1900 **What Barfield Thought** Landon Loftin,Max Leyf,2023-05-02 As interest in Owen Barfield grows we aim to meet the need for a scholarly introduction to his thought Our primary purpose is to present an overview analysis and synthesis of Barfield's most salient ideas in a manner that will be of interest to neophytes and initiates alike Barfield's work can at times be difficult to understand C S Lewis put it well when he described Barfield's style of argument as dark labyrinthine and pertinacious But Lewis ardently promoted Barfield's work because he knew that people who willingly walk in those dim and winding corridors

are in time richly rewarded by the bright light at their end We offer the present work in service to those who wish to undertake this adventure While the present book will help those readers who wish to engage Barfield for the sake of achieving a greater understanding of and appreciation for other writers who have been associated with or influenced by him we aim first and foremost to present Barfield as a profound and original thinker in his own right A Companion to Early Modern Philosophy Steven Nadler,2008-04-15 This is a reference for early modern philosophy Representing the most contemporary research in the history of early modern philosophy it is organized by thinker rather than theme and covers every important philosopher and philosophical movement of 16th and 18th century Europe **Our Wild Niche** Laurie Cookson,1999 Wouldn't it be great to be wild To be so natural and free that we could do whatever we want But we can't If our species went wild the results could be very unpleasant We might lose control Our species has allowed itself to become artificial in its efforts to be careful and considerate But what if we have made a mistake and miss the real value of wildness In nature not all animals are evolving but all of them are wild Why Evolution is survival of the wildest not survival of the fittest Being wild allows an animal to become efficient in its niche Wild species flourish in natural diversity and harmony How do they do it Our Wild Niche explores what it is to be wild the obstacles that stand in the way of our being wild and the human traits that will come forward when we finally do reach our wild niche It also shows how the wildness links everything together into a sensible and complete package that will give new insight into the role of our human emotions feelings instincts adaptations and desires Views of Nature and Dualism Thomas John Hastings,Knut-Willy Sæther,2024-01-19 In the face of the anthropogenic threats to the singular planetary habitat we share with other human beings and non human species humanities scholars feel a renewed sense of urgency 1 to acknowledge the ways our species has funded particular histories of environmental exploitation alienation and collapse 2 to unpack inherited assumptions that impact our views of nature and interspecies relations and 3 to suggest ways of thinking and acting that seek to repair the damage and promote mutual flourishing for all of earth inhabitants This volume brings together scholars in philosophy theology and religion who take up this urgent ethical task from a broad range of perspectives and locations Russia's Uncommon Prophet Wallace L. Daniel,2016-04-20 This lucidly written biography of Aleksandr Men examines the familial and social context from which Men developed as a Russian Orthodox priest Wallace Daniel presents a different picture of Russia and the Orthodox Church than the stereotypes found in much of the popular literature Men offered an alternative to the prescribed ways of thinking imposed by the state and the church Growing up during the darkest most oppressive years in the history of the former Soviet Union he became a parish priest who eschewed fear who followed Christ's command to love thy neighbor as thyself and who attracted large diverse groups of people in Russian society How he accomplished those tasks and with what ultimate results are the main themes of this story Conflict and controversy marked every stage of Men's priesthood His parish in the vicinity of Moscow attracted the attention of the KGB especially as it became a haven for members of the intelligentsia He endured

repeated attacks from ultraconservative anti Semitic circles inside the Orthodox Church Fr Men represented the spiritual vision of an open non authoritarian Christianity and his lectures were extremely popular He was murdered on September 9 1990 For years his work was unavailable in most church bookstores in Russia and his teachings were excoriated by some both within and outside the church But his books continue to offer hope to many throughout the world they have sold millions of copies and are testimony to his continuing relevance and enduring significance This important biography will appeal to scholars and general readers interested in religion politics and global affairs

**Nature in the Middle Ages and the Early Modern Times** Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches

**The Works of the English Poets, from Chaucer to Cowper: Broome, Pope, Pitt, Thomson** Alexander Chalmers, 1810 **The Tenth Muse** Albert Gelpi, 1991-09-27 The Tenth Muse considers the debate between intellect and passion apparent in the work of poets from Bradstreet to Rich Word Art + Gesture Art = Tone Art Hanns-Werner Heister, Hanjo Polk, Bernhard Rusam, 2023-03-06

This book offers a truly interdisciplinary discussion on the relationship between the vocal and the instrumental in music and other arts and in everyday communication alike Presenting an in depth systematical and historical analysis of the evolution of word and gesture art it gives extensive information on the anthropological biological and physiological influences and interactions in music and beyond The book gives a unique definition of the genuinely vocal and instrumental from their generative deep structure They derive from and are determined in their production by the duality of voice and hands and in terms of product as the tone or tonal on the one hand and the percussive that is noise plus rhythm on the other This book succeeds in bringing together perspectives from art and from natural and social sciences merging them to offer new explanations about the relationship between the vocal and instrumental and eventually about the origins of music arts and

language It offers new perspectives on the intertwining between the vocal and the instrumental specifically in the context of the expressions of human languages At the same time this book aims at clarifying and explaining the role of words and gestures in different contexts such as society and communication education and arts     The Book of Nature John Mason Good,1828     *The Arnoldian* ,1984     **The Analogy of Religion, to the Constitution and Course of Nature** Joseph Butler,1857
