Alain-G. Gagnon

Seeking A New Canadian Partnership Asymmetrical And Confederal Options:

Seeking a New Canadian Partnership F. Leslie Seidle, Institute for Research on Public Policy, 1994 This document presents asymmetrical and confederal options regarding a new partnership Topics covered are brinkmanship and renewal of Canadian federalism toward a multinational federalism flexibility within the present constitutional framework and the challenge of diversity

The Case for Centralized Federalism Gordon DiGiacomo, Maryantonett Flumian, 2010-08-21 The Case for Centralized Federalism and its sister volume The Case for Decentralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism In The Case for Centralized Federalism an array of experts condemns the federal government's submissiveness in its dealings with the provinces and calls for a renewed federal assertiveness They argue that the federal government is best placed to create effective policy support democracy and respond to issues of national importance

Constitutional Politics in Canada after the Charter Patrick James, 2011-01-01 The Charter of Rights and Freedoms was introduced in 1982 Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating There has however been no systematic attempt to identify general theories about Canada's constitutional evolution Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada By adding clarity to familiar debates this succinct assessment of major writings on constitutional politics sharpens our vision of the past and the future of the Canadian federation

Canada Donald G. Lenihan, Gordon Robertson, Roger Tassé, Institute for Research on Public Policy, 1994 The clearest lesson of the debate over the 1992 Charlottetown Accord is that Canadians are divided in their vision of the country This book looks at the issue and examines how the political philosophy of liberalism especially as incorporated into pan Canadianism under former Prime Minister Pierre Trudeau contrasts and conflicts with the more federalist aspirations of moderate Quebec nationalists western regionalists and Aboriginal peoples

Equal Recognition Alan Patten, 2016-11-08 Conflicting claims about culture are a familiar refrain of political life in the contemporary world On one side majorities seek to fashion the state in their own image while on the other cultural minorities press for greater recognition and accommodation Theories of liberal democracy are at odds about the merits of these competing claims Multicultural liberals hold that particular minority rights are a requirement of justice conceived of in a broadly liberal fashion Critics in turn have questioned the motivations coherence and normative validity of such defenses of multiculturalism In Equal Recognition Alan Patten reasserts the case in favor of liberal multiculturalism by

developing a new ethical defense of minority rights Patten seeks to restate the case for liberal multiculturalism in a form that is responsive to the major concerns of critics He describes a new nonessentialist account of culture and he rehabilitates and reconceptualizes the idea of liberal neutrality and uses this idea to develop a distinctive normative argument for minority rights The book elaborates and applies its core theoretical framework by exploring several important contexts in which minority rights have been considered including debates about language rights secession and immigrant integration Demonstrating that traditional nonmulticultural versions of liberalism are unsatisfactory Equal Recognition will engage readers interested in connections among liberal democracy nationalism and current multicultural issues **Fiscal**

Federalism in Multinational States François Boucher, Alain Noël, 2021-07-21 Substate nationalism is often studied as a question of political identity and cultural recognition The same applies to the study of multinational federalism it is mainly conceived as a tool for the accommodation of minority cultures and identities Few works in political philosophy and political science pay attention to the fiscal and redistributive dimensions of substate nationalism and multinational federalism Yet nationalist movements in Western countries make crucial claims about fiscal autonomy and the fair distribution of resources between national groups within the same state In recent years Scottish nationalists have demanded greater tax autonomy Catalan and Flemish nationalists have viewed themselves as unfairly disadvantaged by centralized fiscal arrangements and equalization payments and social transfers in Canada have exacerbated tensions within the federation In Fiscal Federalism in Multinational States contributors from political philosophy and political science disciplines explore the fiscal side of substate nationalism in Canada Belgium the United Kingdom Spain and Australia Chapters examine the connection between secessionist claims and interregional redistributive arrangements power relations in federations where taxing and spending responsibilities are shared between orders of government the relationship between substate nationalism and fiscal autonomy and the role of federal governments in redistributing resources among substate national groups Fiscal Federalism in Multinational States brings together scholars of nationalism and federalism in a groundbreaking analysis of the connections between nationalist claims and fiscal debates within plurinational states **Theories of Federalism** D. Karmis, W.

Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There are also readings both contemporary and historical that attempt to clarify conceptual issues Multilingual Democracy Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult

to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the 1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism

The State of Education in Canada Thomas T. Schweitzer, Robert Kirby Crocker, Geraldine Gilliss, 1995 How good are Canadian schools What measurements should we use to evaluate the state of Canadian education This book discusses the state of schools in Canada in comparison to other countries as well as province to province It looks at the crucial elements in any educational system ranging from the family environment to the quality of teaching to the effectiveness of school bureaucracy It also stresses the importance of education in creating a well trained and efficient workforce and suggests that a high level of numeracy and literacy generates significant income premiums for Canadian workers

Rethinking the Delivery of Public Services to Citizens F. Leslie Seidle, Institute for Research on Public Policy, 1995 Based on in depth research and 50 interviews with senior officials Examines recent innovations structural change to separate policy and operational functions total quality management principles performance targets service standards and client assessment partnership and single window one stop shopping techniques

The Medium and the Muse Charles Sirois, Claude E. Forget, Institute for Research on Public Policy, 1995 To determine effective public policy in the domain of the information highway it is necessary to consider Canada s present competitive position and performance and to make a careful assessment of infrastructure development and cultural policy the two major challenges facing the country This essay contains suggestions on how Canada ought to address the challenges posed by the emergence of the information highway It describes the opportunities and challenges of the information highway market intermediaries and their role for content and transfer services structural and regulatory considerations and international dimensions

Theories of Secession Percy B. Lehning, 2005-06-23 Theories of Secession presents a systematic analysis of the rise of secessionist movements in global politics Bringing together a collection of experts in the field it provides a timely forum for debate in this contentious area of study

Busting Bureaucracy to Reclaim Our Schools Stephen B. Lawton, Joseph Freedman, Heather-jane Robertson, Institute for Research on Public Policy, 1995 In this book the author argues that the bureaucratization of schooling has interfered with the process of education The costs complexity and rigidity of the educational edifice leaves it unresponsive to parental concerns and reluctant to measure its own inadequacies such as illiteracy and high dropout rates among students The author identifies two conceptual bases for action to address this problem public choice theory and agency theory discusses the issue of identity in its relation to education and then makes the case for charter schools in Canada stressing definitions of community parental rights and the need to combat bureaucratic tendencies Two discussants respond to the author's analysis one amplifying his call for charter schools and the other arguing that the basis for demanding reform is less clear than the author claims

Nationalist Movements Explained Maurice Pinard, 2020-05-10 This book examines nationalist movements in four ethnically plural countries one of which has no previous experience of such movements at the national level Presenting comparisons of the cases of Canada Belgium Switzerland and Spain including descriptions of the social economic and political contexts in each country the author investigates the various

determinants of each movement shedding new light on what accounts for ethnic conflict and harmony With attention to the degrees of equality and inequality among the various ethnic groups in each society the extent to which these segments are fragmented and the degree to which there is internal communal integration this volume also examines the particular roles played by political parties and resources in nationalist movements A unique contribution to social movement theory based on important comparative analyses this work will appeal to scholars of sociology and politics with interests in ethnic mobilization and contemporary social movements *Beyond the Impasse* Institute for Research on Public Policy,1998

Efforts to reform the Canadian constitution have only resulted in a serious impasse fostered by demands for change from Quebec and reticence from English Canada This book looks at the potential for achieving reconciliation through a new partnership between Quebec and Canada in a series of papers that examine the stakes for both Canada and Quebec in opting for a modified relationship that is neither the status quo nor complete separation Two papers in part 1 lay the conceptual groundwork concerning the constituent elements of partnership Papers in part 2 deal with the economic union in the context of a renewed partnership Four papers in part 3 examine issues concerning rights recognition and citizenship in a Quebec Canada partnership Part 5 broadens the discussion to the international arena and includes a comparative international scan of partnership models The final part distils the two editors separate conclusions on how to move beyond the impasse based on the studies presented Maintaining a Competitive Workforce Derek Hum,Wayne Simpson,Institute for Research on Public Policy,1996 Just how important is employer based training to Canada s competitive position globally How do we rank among other industrialized nations On what basis should we calculate the returns to education and training and how should the calculations be used in the development of government policy Canada has a delivery system of education that permits its citizens to acquire some of the best skills on earth But have we become too complacent Should we begin to recognize that employer based training rather than traditional education is appropriate The reader will appreciate that this is far from an academic debate There are likely to be federally initiated changes to the public funding of higher education during the next few years and this will have implications for the education and training right across the country This monograph will be required reading for anyone interested in Canada s competitive position the state of Canadian education and the readiness of Canadian workers for the economy of tomorrow BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Contemporary Canadian Federalism* Alain-G.
