The Baronial Opposition to Edward II James Conway Davies, 1967 Medicine in the English Middle Ages Fave Getz,1998-11-02 This book presents an engaging detailed portrait of the people ideas and beliefs that made up the world of English medieval medicine between 750 and 1450 a time when medical practice extended far beyond modern definitions The institutions of court church university and hospital which would eventually work to separate medical practice from other duties had barely begun to exert an influence in medieval England writes Faye Getz Sufferers could seek healing from men and women of all social ranks and the healing could encompass spiritual legal and philosophical as well as bodily concerns Here the author presents an account of practitioners English Christians Jews and foreigners of medical works written by the English of the emerging legal and institutional world of medicine and of the medical ideals present among the educated and social elite How medical learning gained for itself an audience is the central argument of this book but the journey as Getz shows was an intricate one Along the way the reader encounters the magistrates of London who confiscate a bag said by its owner to contain a human head capable of learning to speak and learned clerical practitioners who advise people on how best to remain healthy or die a good death Islamic medical ideas as well as the poetry of Chaucer come under scrutiny Among the remnants of this far distant medical past anyone may find something to amuse and something to admire Catalogue of Books in the Library of the Solicitors in the Supreme Courts of Scotland Society of Solicitors before the Supreme Courts of Scotland. Library, 1908 Politics, Finance and the Church in the Reign of Edward II Mark Buck, 1983-05-12 Walter Stapeldon fifteenth bishop of Exeter was the founder of Exeter College Oxford and the greatest of Edward II s treasurers of the Exchequer As Edward s regime crumbled in 1326 he paid the price of his master s rapacious policies of which he was the chief instrument This study shows how the Plantagenet revolution in government the most massive overhaul of the Exchequer ever undertaken in medieval England was shaped with a clear financial purpose On the basis of his extensive research in the Exchequer archives Dr Buck reveals for the first time the extent and severity of the government's action on the levying of debts to the Crown which although initiated earlier was exacerbated in the early 1320s when parliament and the clergy were refusing the king supply Placing the policies of Stapeldon's treasurership in their political and parliamentary context he argues that the Exchequer was Edward's most powerful weapon against the aristocratic opposition and in the process reassesses the accepted interpretation of these years of turmoil A Subject-index to the Books in the Library of the Law Society of Upper Canada at Osgoode Hall Law Society of Upper Canada. The classic entail was an interest in land which was inalienable and could only pass at death by inheritance to the lineal heirs of the original grantee Biancalana's study considers the origins development and use of the entail in later medieval England and the origins and early use of a reliable legal mechanism for the destruction of individual entails the common recovery He untangles the complex history surrounding medieval landholding in this detailed study of the fee tail the product of extensive research in original sources This book includes an extensive index of over three hundred common recoveries with discussions of their transactional contexts A major work which will interest lawyers and historians **Handbook of British Chronology** E.
