Select From The Black:

Empowering Black Women through Female Solidarity in Selected Black Female Narratives Md Abu Shahid Abdullah, Moutushi Islam, This book attempts to identify the subversive writing techniques adopted by the black female authors to empower their black female protagonists Maryse Condé in *I, Tituba Black Witch of Salem* Gloria Naylor in *Mama Day* Alice Walker in *The Color Purple* Ntozake Shange in *Sassafrass* Cypress Indigo and Toni Morrison in *Beloved* demonstrate how their victimised black female protagonists unify with other afflicted black women to challenge stereotypical ideologies of patriarchal society to interrupt the continuity of their subjugation in order to emancipate as a collective and to reconstruct their future

Lumber Production from Selected Black Hills Ponderosa Pine Lincoln A. Mueller, Jacob Leon Kovner, 1967 Parameters, 1999 **A Study on Varietal Nomenclature as Applied to Cultivated Oats (*Avena Sativa*)** George Stewart, 1917 **Head First HTML5 Programming** Eric Freeman, Elisabeth Robson, 2011-10-06

HTML has been on a wild ride. Sure, HTML started as a mere markup language, but more recently HTML5 has put on some major muscle. Now we've got a language tuned for building web applications with Web storage, 2D drawing, offline support, sockets, and threads, and more. And to speak this language, you've got to go beyond HTML5 markup and into the world of the DOM events and JavaScript APIs. Now you probably already know all about HTML markup, otherwise known as structure, and you know all about CSS style presentation, but what you've been missing is JavaScript behavior. If all you know about are structure and presentation, you can create some great-looking pages, but they're still just pages. When you add behavior with JavaScript, you can create an interactive experience; even better, you can create full-blown web applications. **Head First HTML5 Programming** is your ultimate tour guide to creating web applications with HTML5 and JavaScript, and we give you everything you need to know to build them, including how to add interactivity to your pages, how to communicate with the world of Web services, and how to use the great new APIs being developed for HTML5. Here are just some of the things you'll learn in **Head First HTML5 Programming**: Learn how to make your pages truly interactive by using the power of the DOM. Finally understand how JavaScript works and take yourself from novice to well-informed in just a few chapters. Learn how JavaScript APIs fit into the HTML5 ecosystem and how to use any API in your web pages. Use the Geolocation API to know where your users are. Bring out your inner artist with Canvas. HTML5's new 2D drawing surface. Go beyond just plugging a video into your pages and create custom video experiences. Learn the secret to grabbing five megabytes of storage in every user's browser. Improve your page's responsiveness and performance with Web workers. And much more.

Jackson, Cleopatra Howard Caldwell, Sherrill L Sellers, 2012-09-14 Experts from a range of disciplines offer practical advice for conducting social science research in racial and ethnic minority populations Readers will learn how to choose appropriate methods longitudinal studies national surveys quantitative analysis personal interviews and other qualitative approaches and how best to employ them for research on specific demographic groups The volume opens with a brief introduction to the difficulty of defining a population and designing a research program and then moves to illustrative examples drawn from the contributors own studies of Blacks in the United States the Caribbean and South Africa Case studies cover research on the media mental health churches work marital relationships education and family roles Black Politics Today Theodore J. Davis Jr., 2013-06-17 The late 1980s ushered in a new era of black politics the socioeconomic transition era Coming on the heels of the protest era and politics era the current stage is characterized by the emergence of a new black middle class that came of age after the Civil Rights struggle Although class still isn t a strong factor in the external politics of the black community it is increasingly a wedge issue in the community s internal politics Black politics today is increasingly less about the interest of the larger group and more about the interest of smaller subgroups within the community Theodore J Davis Jr argues that the greatest threat to the social and political cohesiveness of the so called black community may be the rise of a socially and economically privileged group among the ranks of black America This rift has affected blacks ability to organize effectively and influence politics Davis traces the changes in economic status public opinion political power and participation and leadership over three generations of black politics The result is an insightful analysis of black politics today
