Selected And New Poems 1980 To 199:

Poetry of Contemplation Arthur L. Clements, 1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

Joseph Cornell's Vision of Spiritual Order Lindsay Blair, 2013-06-01 The boxes and collages constructed by Joseph Cornell 1903-72 are among the most intriguing and beguiling works of art made this century Old toys photos magazine illustrations bits of electrical wiring anything in fact more usually left to molder in lumber rooms or junkshops were hoarded by him as the elemental materials he needed for his constructions The finished works are visually entrancing but the intensely personal webs of reverie and association that determined their content make these boxes at once both oddly familiar yet ineluctably strange Drawing on the widest range possible of primary material virtually all Cornell's scrapbooks and source files as well as correspondence and diaries supplemented by further details gathered during more than fifty interviews undertaken with the artist's family and acquaintances including Robert Motherwell and Susan Sontag Lindsay Blair gives us the most detailed picture yet of an artist who hid so much of his life from the world Her conclusion wholly convincing in the light of the evidence she provides is that Cornell's ultimate subject was the mind itself
