Schmidt,1989-06-26 As Otten and Schmidt note in their preface voice is a broad metaphor Thus the 41 essays in this collection provide varied approaches examining point of view focus selection of details tone and even illustrations as part of the narrative identity Eight genres including picture books fantasy realism and biography receive separate study in generally brief articles by writers and more substantial analyses by critics In her contribution Jill Paton Walsh describes contemporary criticism as an impenetrable thicket of technical terms In most cases the critics here avoid jargon They speak clearly offering practical criticism accessible to anyone seriously concerned about narrative technique in children s literature Choice Although children s literature is now a recognized branch of English and American literature much of the criticism of it has focused on teaching methodology history and basic exposition Since children s books are no less a part of the literary tradition than adult books there is room for new approaches to children s literature While the importance of the voice of the narrator is emerging in criticism of adult fiction poetry and nonfiction little has been written about this subject in children s literature Examining the voice of the narrator can identify hitherto unexplored and unrecognized aspects of children s literature The essays in this collection were

contributed by noted authors and critics Their inquiry is divided into eight genres the illustrated book folk literature and myth fantasy realism poetry historical fiction biography and informational books and each genre is discussed in terms of the authorial voice and the critical voice Each of the essays works toward an understanding of how the voice of the narrator functions in a given work or in the larger corpus of an author s work The result is not only a greater understanding of how specific authors shape their material and how authors use voice for particular effects but also how the narrator differs functionally from one genre to the next This unique essay collection is particularly suited for use in children s literature courses Because the contributors are some of the most significant authors and critics in children s literature in English it should also be part of any academic library s holdings in the criticism of children s literature in particular and literary criticism in general

*Great White* James Woodford, 2014-12-01 I remember thinking two things at the time Firstly if it had wanted to eat us we wouldn t have stood a chance and second it didn t want to eat us When James Woodford was confronted by half a dozen sharks swimming at full speed he froze in shock But he was even more surprised when they swam right past completely ignoring him He couldn t reconcile this experience with the mindless eating machines that dominate the discussion of sharks in Australia Interviewing world renowned experts and joining research teams at Neptune Islands one of the most famous shark aggregation locations in the world and consequently one of the most dangerous dive sites James investigates these intriguing creatures at close range and discovers their fascinating world
